PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	The case seems very interesting to me, but a very important aspect is missing from his medical history, which is your personal history: did you have any previous lung disease? Have you previously had any radiological studies? Correcting this, I like the article for publication.	Thank you for the feedback. The patient has not any previous lung history. The last radiology examination of this patient was two months before admission, and the result was normal.
Minor REVISION comments		
Optional/General comments
