Review Form 1.6

Journal Name:	**Asian Journal of Geological Research**
Manuscript Number:	**Ms_AJOGER_69637**
Title of the Manuscript:	**Application of SRTM DEM and Electrical Resistivity Techniques to Delineate Favourable Borehole Sites for Groundwater in Parts of Minna Sheet 164 SW, North-Central Nigeria**
Type of the Article	**Original Research Article**

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty'**, provided the manuscript is scientifically robust and technically sound.
To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments	It's a well written paper, it has only minor corrections, maybe just typos and punctuation mistakes, The only part I think it should be rewritten is the first sentence in the Recommendations section. Otherwise, it is concise clear and professionally written. I would like to have a table correlating the apparent resistivity values and the geological material inferred…	It would have been nice to provide this table, Unfortunately, this is still the initial phase of the research as drilling on recommended points is yet to commence.
Optional/General comments		

PART 2:

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
