PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments 1. Abstract as modified under reviewer's comments 2. Introduction 3. Focus of the paper 4. Method a. design b. sample size determination and sampling technique 5. Results 6. Discussion 7. Referencing	The Socio-Demographic Characteristics, Pesticide Usage And Health Status Of 300 Rice Farmers From Region 12 In The Philippines In 2015 Were Assessed And Determined The Influence Of The Socio-Demographic Characteristics On The Farmers' Pesticide Usage And Health Status. This Was Done With A View To Describing The Current Well-Being Of The Farmers As Basis For Recommending Strategies To Improving Their Farming Practices And Health Conditions. No Material And Method, Result Is Ok; No Conclusion But Recommendation. Mode Of Citation Is Not Compliance With Referencing, Citation Is APA (Mode Author And Year) But Referencing Is Vancouver (Mode Numbering Form). The Paper Adopts Purely APA Format. The Focus Is On Occupational Health And Safety. Hence, Could Be Anchored With A Framework Like Workplace Health Promotion And Safety Model. - The Design Is A Mixed Methods Combining Both Qualitative And Quantitative Approaches. **-** This Were Not Adequately Presented To Flow As Indicated In The Paper. It should also indicate procedure for data collection and data analysis in a abetter form. - Ensure all each occupies a single page not extending to another. - Well compared with current literature. - Purely APA, no numbering but arrange in alphabetical order and it should be in complete form (look for 18-24)	Noted Corrected the revision Revised Done
Minor REVISION comments	As above	
Optional/General comments	The paper is good, has contributed to knowledge in the area of occupational health and safety. It is publishable in any reputable journal but not in the present form.	Noted
