PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**The content of the review should be reorganized as gastrointestinal system cancers, gynecologic cancers, urogenital cancers etc.** **In each cancer type, information should be given in an order as follows:** **1)a short definition of the cancer type, demographic factors** **2)its general incidence rate,** **3)risk factors from the most to the least frequent ones.**	It was reorganised. A short definition is not given because the readers of this journal are proficient enough in oncology to understand the concept of different cancers. The incidence rates was given as well as the most important factors first.
Minor REVISION comments	Reference section should be checked and all the references should be written in the same format.	The references were written in the same format.
Optional/General comments	The title should be shortened	The title was shortened
