PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	Regarding bibliographic citations: 1. There are citations in the text that are not the final list of references and vice versa 2. There are citations in the text with three authors together that should be cited considering "et al." 3. The final list of the references is not in alphabetical order.	The manuscript has been thoroughly revised and modified
Minor REVISION comments		
Optional/General comments	The manuscript presents data of interest in rhizosphere samples in altered soils. In this sense, this information is feasible to be published. The experimental development, the results and the statistical analyzes are in agreement with the proposed goal. The conclusions support the objective of the research. The literature reported is in accordance with the theme developed, but it is necessary to write it correctly.	

PART 2:

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
