PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**1. Extreme English editing is recommended due to various typo and grammatical errors.** **2.Title of the study needs to be rephrased as article is not completely focused on T-ARMS-PCR. Other parameters are also studied.** **3. Abstract needs to be shortened, especially the conclusion does not give the exact picture of the study.** **4. Objective of the study does not match with Introduction and Discussion.** **5 Introduction section needs to be rearranged as too much literature is discussed. 4. T-ARMS-PCR methodology should be written in clear words.** **6. Discussion needs to be re-written as it does not focus on the main objective of the study which is claimed to the Evaluation of T-ARMS-PCR for IL28B genotyping.** **7. References are too old, no ref after 2016, new references should be added.** **See the attached file for more comments.**	All correction Done
