PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	**The Paper is original, reliable with significant conclusion. Should be accepted with minor corrections. The Author/s should highlight his/her findings before making reference to other people's work.**	Done
Minor REVISION comments	Accept with minor revision	Thank you
Optional/General comments	However, the prevalence is very high based on the number of subjects/population assessed (14.3%).	These were our findings. There is a need for a broad based study because the prevalence in Anambra state as a whole may be far more alarming.

PART 2:

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*	No there are none
