Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	**MS_JPRI_59663**
Title of the Manuscript:	**Virtual screening to identify the protein targets in common dental pathogens interacting with menthol**
Type of the Article	Original Research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**Lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)his/her feedback here)*
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	**The authors have used the menthol to target the virulent proteins of dental pathogens.** **The study has application in elimination of bacteria and also for academic purpose of menthol-bacteria interaction to achieve a number of results for drug discovery. The manuscript is well written. I recommend the paper for publication.**	The authors wish to thank the reviewer for the appreciation.

PART 2:

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*	No ethical issues are involved since the study is an in silico one
