

Editor's Comment:

I send you the document entitled "Comparison of mental health of the elderly living in the household (with children) with the elderly living in nursing homes in the cities of Tabriz and Urmia (Iran) in 2018" revised and with observations. There are a number of aspects in the article which it is important to correct to make it publishable. In order to simplify the work, I refer again the final article with observations and suggestions. What appears with red letters I suggest is deleted, what appears with blue letters is already corrected or must be corrected. As a general observation, I consider it important to improve the writing of the paper. The work needs to be corrected and it is desirable that it be done in a short time so that its publication is approved.
