

Editor's Comment:

What I saw not all reviewers' suggestions have been followed up by the author. For instance, it was suggested that the references should be reorganized, in alphabetical order. It has not been done. Also, if the author thinks that some suggestions are not relevant or not applied to his/her study, he or she should give the reason.

Editor's Details:

Dr. Tulus T.H. Tambunan

Professor, University of Trisakti, Indonesia
