

**Editor's Comment:**

Requires language editing. The author should be made to carry out a thorough language editing of the manuscript. See the tracked changes in the manuscript attached. I have tried to show examples in the tracked manuscript, but the authors must be made to ensure a thorough language editing, and, review the structural defects in the manuscript. As it is, it cannot be accepted for publication. The integrity of the journal is at stake if it is allowed to pass as it is.

I would like to see the final revision of the manuscript.

**Editor's Details:**

Dr. FAGBADEBO Omololu Michael  
Department of Public Management and Economics, Durban University of Technology, South Africa.
