

Editor's Comment:

Author has not made necessary corrections in the referee report. All revision was not made by authors.

Accepted Minor Revision : author needs to present some information in the abstract. The introduction section needs to be updated. Materials and methods need some details with references if possible. Results need to be presented more clearly. The discussion needs more comparison with earlier published papers.

Editor's Details:

Dr. Pinar Oguzhan Yildiz

Assistant Professor, Department of Food Engineering, the Faculty of Engineering, Ardahan University, Turkey
