

Editor's Comment:

The authors have provided adequate data to support the pharmacological potentials of the plant extract. The manuscript can be accepted for publication in the journal, but few minor corrections are still required:

- 1. Subscript 50 in LC50.**
- 2. The number of keywords must be 6.**
- 3. Conclusion needs major improvement.**
- 4. References must be made uniform in accordance with the format provided by the journal.**
- 5. Use English correction software for improving Grammar and minimizing typographic mistakes.**
