

Editor's Comment:

Taking into consideration the reviewers' comments, the revised manuscript as well as the authors' feedback, I recommend the paper not to be accepted for publications until the authors give their feedback in all reviewers' comments point by point. More specifically, they should focus on the comments they have not responded in their feedback such as the compulsory comments of Ast, Mar and Chu reviewers. In addition to that, I think that it is compulsory for the editorial board to receive the acceptance of the revised manuscript by two (at least) reviewers. I suggest also authors to properly shorten the title of the manuscript as well as check and properly adapt the literature.

Editor's Details:

Dr. Philippos I. Karipidis
Professor, Department of Agricultural Technology –Agricultural Economics, (former Agricultural Development and Agribusiness Management), Alexander Technological Educational Institute of Thessaloniki, Greece
