

**Editor's Comment:**

The authors addressed an important public health issue. I consider that the article entitled "**Analysis of Deaths Occurred in Households During the Pandemic by Covid-19 in a Brazilian Amazon Region: An Epidemiological Approach**" is suitable for publishing in International Journal of TROPICAL DISEASE & Health.

However, provided that the following corrections have been made:

- 1-Figure 1 and 2's captions should be written below the figures, not above them.
- 2- It would be appropriate to give the gender distribution of the deceased in Table 1.
