EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>The author has introduced the discussion section in reaction to my recommendation. However, the discussion assumes a comparison of the author's findings with those made by other scholars in their previous studies, a critical discussion of the author's major findings through a prism of other studies, with references to those studies. I recommend revising the discussion section accordingly.</p>	<p>A comparison between the findings in this study and previous studies have been done. However, I will like the Editor to note that this is a method article. Consequently, the pattern of discussion suggested by the Editor may not be totally relevant here.</p>
