EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>First of all thank the authors for choosing the present journal to submit their manuscript.</p> <p>Taking into consideration the reviewers' comments, the revised manuscript and the authors' feedback, it is not apparent that the authors have done all the improvements the reviewers suggest. the authors should properly clarify the improvements they have made, following the recommendations of the reviewers, point by point. They should also properly rework the abstract following the "Dit" and "Dim" reviewers recommendations as well as make clear the type of the article</p>	<p>As suggested by the reviewer I extend the trade war shot till September 2020. Initially it stopped at 2018.</p> <p>Also I restructured the abstract</p> <p>It is Research Article</p> <p>Thank you.</p>
