**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Dear editors and colleagues, I looked carefully at the text. My opinion: 1. The text is of excellent quality; 2. The text is exploratory. Praise for the author (authors). However, a very small, very small revision is needed (correct technical errors in the text and pay attention to style and grammar - marked in red). As far as I noticed, not all references (shown in the literature) are listed in the text. It would be nice for the author to make references list at least five more papers from Scopus and WoS (posted on a similar topic).	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
