**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"> <li>1. While factual and maybe regarded as common knowledge, some statements need referencing, especially in the introductory section of the paper.</li> <li>2. The author adopts a loose application of concepts such as knowledge/information and information transfer/dissemination. While this might be common during informal verbal discussions, this is wrong from a strict academic/conceptual point of view. Please revise based on the detailed comments in the draft paper.</li> <li>3. Policy recommendations must be feasible and practical. Rather than calling for an impossible law the author should recommend that the federal government provides economic incentives, such as tax deductions for imported equipment, for mobile service providers to expand their mobile service coverage in rural/horticultural production areas.</li> <li>4. Some policy recommendations, e.g. the need to reduce call rates, are disconnected from the study findings since exorbitant call rates are not highlighted as one of the key constraints. Please revise.</li> </ol>	
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>1. Improve writing style. E.g. reformulate sentences to ensure that no sentences are starting with numbers.</li> <li>2. This is a journal article based on past research. As such the appropriate grammatical tense to use is the past tense. Please revise accordingly.</li> <li>3. The draft manuscript has a number of grammatical mistakes and typos. These need to be rectified.</li> </ol>	
<b>Optional/General</b> comments	<ol style="list-style-type: none"> <li>4. The sample size is a bit on the low size but not low enough to render the findings invalid/insignificant.</li> </ol>
