**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Good methodology and organization. The tables with the results are adequate but some graphics would make the results easier to understand. There is no real interpretation of the results, it's only descriptive. There are some suggestions to improve the situation in Ghana, but a good justification of each one would be nice (maybe some references). Adequate references.	
<b>Minor</b> REVISION comments	I found some small English mistakes and marked them in the paper (like in page 3). Some future work to follow the research would be nice. Something like "In X years we plan to ask again..."	
<b>Optional/General</b> comments	Good paper.	

**PART 2:**
