PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1) Was proper counselling given to patient and the attenders about the severity of the disease and the need for followup?2) Why wasn't frozen section done after the initial wide local excision surgery3) Did the CT scan (done before the 2nd surgery) show axillary lymph nodal metastasis?4) Why wasn't PET-CT done as the patient had not undergone Radiotherapy and had defaulted the treatment and followup?	
Minor REVISION comments	<ol style="list-style-type: none">1) Nodes are mentioned as matted, which is a feature of tuberculosis and not malignancy. Correct it accordingly.	
Optional/General comments	Lots of lacunae from the patient side in getting treated.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
