**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>1. The theories adopted by the researcher are not fit for the study. The variables of the theories do not address the problem of IRR in organization.</p> <p>A theory is to give solution to a problem and must relate to the field of study, where a theory is being imported, it must be adapted to fit the field it being adapted into.</p> <p>Please look for a suitable theory or remove it.</p> <p>2. After the abstract please add introduction</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	This paper is good and will contribute greatly to IRR usage in organization if only a empirical research can be carried out with an actual case study.	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	(If yes, Kindly please write down the ethical issues here in details)
