**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The communication is based on a review work carried out on the various techniques available on the management of waste generated during COVID-19. The article is based on the guidelines issued by CPCB (India) on Handling, treatment and disposal of waste generated during treatment, diagnosis/quarantine of Covid-19 patients. part Nothing informative has been provided based on a thorough literature survey carried out world over on the waste management of COVID patients. The work is silent on the environmental impacts of waste generated during the treatment of COVID patients.</p> <p>The author should have done a thorough literature survey collecting reports/papers/articles published world over and could have published a good literature on the subject rather than depending on a document published by CPCB and some other secondary information which are readily available</p> <p>The author should have acknowledged the source of fig 1</p> <p>Many aspects have been found to copied from Wikiwand</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	The paper is not accepted in this form
