PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> In Table 1, it's titled "Effects on vitamin and mineral supplementation on immune response"; while the first column is named "immune system", please look for a more appropriate title for that column. While T cells was mentioned above regarding how some vitamins play important roles in the immune system, it's not included in Table 1. The immune response summary table needs to be more comprehensive. 	
Minor REVISION comments	<p>In the abstract:</p> <p>Line 9, "a well-functioning immune system"</p> <p>Line 11, "B-complex"</p> <p>Line 16, "patients"</p> <p>Line 20, "ABBREVIATION"</p> <p>...</p> <p>Line 72 plural mistake.</p>	
Optional/General comments	<p>This article should go through careful revision before re-submission. There are many grammatical mistakes on missing articles, inconstant plurals, and spellings.</p> <p>The overall idea focuses on how micronutrients can benefit boosting the immune system, however, less relatable to COVID-19. More information should be added into each paragraph on how COVID-19 and respiratory syndrome can relate to micronutrients.</p>
