General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1-The results of the two vaccine shots is questionable. 2-The discussion of the two vaccine shots is neither logical nor accepted. 3-The post-vaccination sero-conversion does not mean protection it means the strength of the humeral immune response to vaccine. So the points 1-3 should be amended everywhere in the text	
Minor REVISION comments	Some words stick together in more than once in the text. Please amend it.	
Optional/General comments	Thanks for strait English language.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
