General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> No methodology regarding the conduction of the literature search and the preparation of this review is presented. The manuscript presents low originality. Many studies and reviews have been published presenting the same aspects of SARS-CoV-2. Authors should consider further discussing the need for a new review and the differences and potential originality of their study compared to previously published studies. What is the new information provided in this review? 	
Minor REVISION comments	<ol style="list-style-type: none"> Certain statements mostly regarding the spread of SARS-CoV-2 throughout the world are repeated in the manuscript. 	
Optional/General comments	<p>This a narrative review with the aim to discuss the origin, virology, phylogeny, genetics, and pathogenesis of SARS-CoV-2. Certain issues exist and need to be further addressed by the authors.</p>
