**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>1. Introduction section is weak.</p> <p>2. English language is very poor.</p> <p>3. The results and discussion should be compared with other findings.</p> <p>4. To support the conclusions the manuscript is limited in results, I recommend performing theoretical calculations, such as molecular dynamics and DFT calculations.</p> <p>5. In general, the results only show a merely characterization and comparison with some previous articles, the discussion needs deeper in terms of intermolecular interactions.</p> <p>6. Most references are very older; I recommend adding more references within the last five years at least.</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
