PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Introduction part is too elaborated. The paragraphs related to the previous studies conducted can be precise. Try to give gist of study only in 4-5 lines. 2. Add study design/ type of study in the title. 3. Add flow chart of the study : total no. Screened , included, excluded with reasons etc. 4. Age groups can be mentioned in more details with more class intervals, like 1mnth – 6yeras, 6years – 12 years and 12-18years. 5. How mean age is expressed? Its mean \pm SD or mean \pm SE ? Kindly explain. 6. Kindly mention regarding the types of skin disorders observed in this study. Make a tabular or pictorial representation of that. 7. Kindly add the limitations of this study in the discussion part. 8. Add Ethical Clearance certificate number. 9. Check reference no. 7, rewrite in Vancouver's style. 	
Minor REVISION comments	<ol style="list-style-type: none"> 1. Few grammatical mistakes. The language of the manuscript can be improved. 2. Few suggestions/observations made in a track mode. 	
Optional/General comments	<ol style="list-style-type: none"> 1. This is an appreciable effort done by the author to conduct this study. 2. The study is well designed with thoughtful concept. 3. The literature review was done nicely with appropriate information in Introduction section. 4. The manuscript seems to be incomplete in relation to details regarding skin disorders. 5. The aim of the study is to identify skin disorders in children attending OPDs, however, the details regarding the disorders are missing. Author has not mentioned that which type of skin disorders they have faced or came across during this study period. 6. It is suggested to add details about skin disorders occur due to these associated factors. Add in a tabular form or pictorial presentation with number of cases. 7. Being a scientific journal, readers expect to know these details in your manuscript.
