

SDI Review Form 1.6

Journal Name:	Asian Journal of Research in Dermatological Science
Manuscript Number:	Ms_AJRDES_57731
Title of the Manuscript:	ADERMATOGLYPHIA: Challenges and Prospects in diagnosis
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article is technically sound. The subject is original and there is little bibliography on adermatoglyphs, making it an interesting contribution to human identification, security and science.	
Minor REVISION comments	no comment	
Optional/General comments	In general, adermatoglifia is a strange or rare situation that in itself constitutes a means of identification, since there are not many people with this pathology, either natural or acquired. It is suggested to the author to consider this when writing the manuscript.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
