**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Because the manuscript is an overview, I would like the authors to provide a scientific description of the disease evolution throughout the world including : <ul style="list-style-type: none"> <li>- Situational evolution of the disease during a targeted period if possible by continent and with a consequent statistical analysis</li> <li>- Detection methods,</li> <li>- Mean control measures put in place and their impact on the disease from the onset to a specific date</li> </ul> <b>O</b> thers revision comments can be found in the manuscript	-
<b>Minor</b> REVISION comments	Because publications on that disease are still rare, authors should have specified any reference just after its citation, to ease the review: instead of several references at the end of a long paragraph	
<b>Optional/General</b> comments	One paragraph on treatment/healing theories in some countries (mainly in Africa) will be an asset	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
