

Journal Name:	Annual Research & Review in Biology
Manuscript Number:	Ms_ARRB_62548
Title of the Manuscript:	Shelled-molluscs fauna at Abrolhos Bank (Brazil): assessment of both total species richness and the completed distribution of species frequencies by numerical extrapolation of a partial survey
Type of the Article	Original Research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper is of a major importance for the western tropical atlantic, specially over off-shore coralline and algal reef banks, over biodiversity assessment and conservation	
Minor REVISION comments	The authors must review the text structuration and wording, making it more compliant within scientific textual etiquette, concision and coherence. The text exhibits several problems over the matter, appearing like the authors used literal translations over their native language. If the authors aren't native English speakers, a translation service would be a good option.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
