PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors have compiled results of a study carried out on underground water so as to ascertain whether the quality meets the MCL or otherwise. I would suggest to the authors to give WHO recommended level for each parameter studied. Further this study is lacking risk assessment which should be studied. The discussion provided is not in-depth. Please provide a comprehensive in-depth discussion on your results in the light of available literature.	
Minor REVISION comments	NA	
Optional/General comments	NA
