General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|--|
| Compulsory REVISION comments | <p>Adjust abstract to follow this format; introduction as author has done, this is followed by the objective of the study, methods employed, results and conclusion. Abstract is not very bad but needs to add objective and follow the corrections written</p> <p>Study matrix is needed and the map of the study area is very vital. Location of study area is important in research</p> <p>Your reference should follow the same format; Either use and or & uniformly through out</p> <p>It is advisable to Use the APA style of referencing throughout</p> | |
| Minor REVISION comments | <p>Results should be separated from discussion. Present your results first and later discuss them. This makes your work very scientific and clear to readers. Good work can be turned bad if not well presented</p> <p>Go through the work, space joint words and italic <i>et al</i></p> | |
| Optional/General comments | <p>Please, correct your language, space out</p> | |
