PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The author should revisit the result and discussion section to harmonize several literatures that had no direct relevance to the study.	Substantial corrections had been made within the body of the paper. The author should take special attention on the various sections of the paper to improve its quality
Minor REVISION comments	The abstract and parts of the methodology should also be attended to make it read better. The literature review did not provide sufficient background on the current state of knowledge on the use of various plants in cough management in other parts of Nigeria	
Optional/General comments	The author did not consult widely on the methodology as study locations were not properly justified. The result was too detailed than the objective of the study	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
