PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Consistence should be followed on plant name for the entire manuscript: <i>Griffonia simplicifolia</i> at beginning and <i>G. simplicifolia</i> for rest 2. Introduction reflects phytochemical properties of the plant than the conservation issues. Please include few conservation importance for the recommendation of vegetative propagation, 3. Methodology part is lacking references, RCBD needs citation. 4. Geographical location (Latitude and Longitude) should be mentioned as Degrees followed by minutes and then seconds. 5. Experimental design is lacking study period (year, month and season) 6. In reference citation Sadhu, 1989; Okunomo <i>et al.</i> 2009; Tisdale and Nelson 1975 were cited in text but not included in reference part. 	
Minor REVISION comments	<ol style="list-style-type: none"> 1. In page number 7 Reading and Data Collection needs clarity. 2. In result part values are given in table 2 and 3 are with superscripts ^{abc} should be mentioned in foot note or can be removed. 3. Result values are not necessary in text as it is mentioned in table can be removed. 4. Grammatical and spelling errors should be corrected for the entire manuscript. 5. IUCN status of this plant should be mentioned (not threatened species). 	
Optional/General comments	<ol style="list-style-type: none"> 1. Title can be modifies as A Case Study on Conservation of a rare medicinal plant <i>Griffonia simplicifolia</i> (Vahl ex DC) Baill by vegetative propagation. 2. The physicochemical properties of the soil <i>ie.</i> Base of the plant stand and River sand are almost similar but top soil differs, it could be discussed.
