

SDI Review Form 1.6

Journal Name:	International STD Research & Reviews
Manuscript Number:	Ms_I-SRR_64068
Title of the Manuscript:	STATISTICAL ANALYSIS OF MOTHER-TO-CHILD HIV TRANSMISSION RATE USING A WEIBULL-EXPONENTIAL INVERSE EXPONENTIAL DISTRIBUTION
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	Provide some related literatures that can support your data that can somehow explain why transmission was high in 2000-2005, lowered in 2006-2014 and then increased again in 2015-2019. You may relate it in the quality of healthcare system or medical strategies during that time. Include some possible reason why there is a "YOYO" status on the rate of transmission.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
