SDI Review Form 1.6

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | Having gone through the manuscript, in conformity with SDI and IJBCRR requirements and desire to present a relevant and useful information to the public domains, I therefore wish to present the following comments: | |
| <u>Abstract</u> | It is Ok | |
| <u>Introduction</u> | <ol style="list-style-type: none"> Line 29: Place the in text citation [2] at the end of the sentence Line 34: Join the definition of Koutoukou to the next paragraph. Line 38: Remove the dates: 2002, 2015, 2014 and 2009 in the in text citation. Only names are required. Then the [5, 6, 7, 8] should be placed at the end of the sentence. Line 42 – 46: "This study proposes to"! Are you presenting proposal or an already completed research? Recast. | |
| <u>Materials and Methods</u> | <ol style="list-style-type: none"> Line 49: check spelling of "Material" Line 61 Why use 2-2- instead of 2.2.? Line 64, 74, 79 and 80: same as above | |
| <u>Results and Discussion</u> | <ol style="list-style-type: none"> Why use Roman numeral for Table 2? Line 122 – 129: Should be part of introduction Line 129 – 177: The author spent time writing what should have been presented under introduction. He fails to make reference to the results of his works as presented in Figure 2, Table 1 and 2. Note under results and Discussion section, you are expected to present your results, Highlight the observations and interpret them statistically, show the implication or relevance of each result, compare and contrast with previous studies and establish a position on what new information your work has brought to the table of knowledge. You have not achieved this in your results and discussion section. | |
| <u>Conclusion</u> | <ol style="list-style-type: none"> Recast, reflecting the objectives achieved at the end of study. | |
| <u>References</u> | References are Ok. | |
| Minor REVISION comments | | |
| Optional/General comments | The content of this manuscript is shallow. It also has poor scientific inclination. | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| Are there ethical issues in this manuscript? | (If yes, Kindly please write down the ethical issues here in details) | |
