PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article leaves some doubts: Were only two areas used for comparison? one forested and one not? If so, it is little for a statistical analysis and for a scientific article. How many samples were taken? The authors put examples of analyzes that were not performed in the present work. Statistical analyzes were not presented for review.	
Minor REVISION comments		
Optional/General comments
