

SDI Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_65403
Title of the Manuscript:	STATUS OF ZINC AVAILABILITY IN JHUM FIELDS UNDER RAINFED CONDITION IN ZUNHEBOTO DISTRICT OF NAGALAND.
Type of the Article	Short communication

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The paper needs substantial improvements. Bibliographic documentation must be made with recent titles. The paper lacks the purpose and objectives, in the first part. The experimental device must be well described in terms of climate (temperature and precipitation) and pedology (soil type and characteristics), for each village/site. These indicators are important to understand the results correctly. In the Material and Method part must be described the methods by which the samples were collected and analyzed. Own results can be better exploited, including through graphical representation. The conclusions must be related to their own results.</p> <p>From the editorial point of view, the paper must be completely rearranged according to the requirements of the journal</p>	
Minor REVISION comments		
Optional/General comments	<p>The paper needs major improvements.</p>
