SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This article describes about In-vitro Anti-Salmonella Activity of Gossypium hirsutum Leave Extracted with Lime Juice.</p> <p>The content is OK.</p> <p>However, the written manuscript is not acceptable standard in journal publication. Unacceptably large number of mistakes, errors etc. Very poorly written manuscript.</p> <p>Appropriate comments are given in the text.</p> <p>The manuscript should be revised thoroughly.</p> <p>Unnecessary sentences should be omitted</p> <p>First of all, the manuscript should go for English language editing.</p> <p>Due to unacceptably very high mistakes in the written manuscript, I did not check the bibliographic references. Complete revision is required</p> <p><u>It is the responsibilities of the authors to ensure the correctness of the references and the accuracy of the entire manuscript while resubmitting this manuscript.</u></p> <p><u>About the FTIR spectrum and details</u></p> <p>The spectrum should be reported in wavenumber with symbol ν_{\max} and not wavelength because this region 900-4000 cm^{-1} corresponds to wavenumber.</p> <p>However,</p> <p>The IR details and the spectrum shall be omitted from the manuscript.</p> <p>Since these details are not specific only to this plant.</p> <p>Most of the crude extracts from any plant material will give almost the same peaks as reported in this manuscript and at various region between wavenumber, ν_{\max} 900-4000 cm^{-1}</p> <p>Appropriate comment s are given in the text.</p>	
Minor REVISION comments		
Optional/General comments
