

**SDI Review Form 1.6**

Journal Name:	<a href="#">International Research Journal of Pure and Applied Chemistry</a>
Manuscript Number:	Ms_IRJPAC_64511
Title of the Manuscript:	Optimization of Extraction and Dyeing Conditions of Natural Dye from Ratanjot Roots Using Ultrasonic Waves
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy> )

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	In optimization the whole variables must consider at the same time. Some software such as "Design Expert" do that. By software the number of runs (sample size) and the combination of variables in each runs calculated. In this study sample size and combination of each treatment is not clear, hence we have only a value, no mean and no standard deviation, and decision based on one result of each treatment is not correct. We need charts that showed all variables at the same time ( x,y,z ).	
<b>Minor</b> REVISION comments	Plant Herbarium is need.	
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	

**Reviewer Details:**

Name:	<b>Dashipour Alireza</b>
Department, University & Country	<b>Zahedan University of Medical Sciences, Iran</b>
