General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The author should insert the entire abstract in the manuscript. The introduction part is too long; it should be shorter.</p> <p>Also they have to provide data about the origin of the culture media and the microscop data (the name of the country and town).</p> <p>Also the author made some misspelled the name of the culture media "MacConkey" (he wrote MaConckey) and also in table no. 3 the name of the germ "Escherichia coli" (he wrote "Esherichia coli")</p> <p>The manuscript has also a lot of grammar mistakes. That is why, the English written style should be revised by a English native speaker in order to remove grammar and spelling inaccuracies and to make the manuscript more formal.</p> <p>The name of the microbes should be written using the "italic" font.</p>	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
