|                                     | <b>Reviewer's comment</b>  | <b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|--|
| <b>Compulsory</b> REVISION comments | <p>- <b>Title is poorly shaped and needs adjustment. See suggestion in the corrected manuscript attached.</b></p> <p>- <b>Abstract:</b> statements like 'From the results obtained, it appears that the hygiene on the whole is unsatisfactory', should be better expressed in more scientific terms. Develop abstract to better show study design and other important information.</p> <p>- <b>Study period of January to February 2019 is too short.</b></p> <p>- <b>Materials and Sampling:</b> NOTE: This is a crucial part of the study and requires clarity and compulsory adjustment. Then necessary aspects of the manuscript need to be adjusted as well for ease of flow and comprehension with respect to total samples collected and how collected.</p> <p>The last statement '<b>These samples were collected in the morning for breakfast foods, at noon for lunch and in the evening for dinner. 90 samples were taken and divided into twenty-one (45) hot and twenty-one (45) cold dishes, with two (2) dishes per restaurant, including one (1) hot and one (1) cold dish</b>', needs to be reworked.</p> <p>- <b>Results:</b> Poorly presented and elaborated upon.</p> <p>- <b>Tables are too many for a short manuscript.</b> Tables 1 to 3 have the same title and can be merged into one table: same as tables 4 and 5, tables 6 and 7, tables 8 to 11, tables 12 to 14, and tables 15 to 18. Font size of 10 or 11 may be used inside tables.</p> <p>- <b>Manuscript needs to be read and certified by an English proof-reader.</b></p> <p>- <b>Poor referencing detected in many instances. References required in many discussion sections. Authors should ensure the journal/publisher's reference guidelines are strictly adhered to. See attached corrected manuscript which include edits highlighted in yellow.</b></p> |  |
| <b>Minor</b> REVISION comments      | <p>- Most typos, sentences, words/phrases requiring corrections highlighted red, and with attached comments are shown in the reviewed manuscript attached. Kindly itemize here and comment on their status where adjusted.</p> <p>- Use reported speech throughout the manuscript.</p> <p>- 'Restorations' used instead of 'restaurants'. Quite poor, even though corrected on several occasions in the discussion section.</p> <p>- Reduce the use of quotes, i.e., etc., and informal/colloquial use of English.</p>   |  |
| <b>Optional/General</b> comments    | <p>Looks like the article was submitted in a hurry with lots of errors in sampling method, typos and poor English and sentence construction. Authors should thoroughly read and have the manuscript read by an English proof-reader before manuscript submission to any journal.</p>   |  |
