Title of the Manuscript:	A Secured and Adaptive Media Streaming Service
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Compulsory REVISION comments	<p>This paper studied the Secured and Adaptive Media Streaming Service. It is some meaningful. Minor revision should be done for this version of the paper as follows:</p> <ol style="list-style-type: none"> 1) The title of this paper should be revised. 2) Mathematical modelling to analyze the service should be added in the section. 3) The format of the reference should be revised. The reference is not enough. Some important recent references are missing, the following references must be totally added in the Section "References" (otherwise, the reference is not enough, then it must be revised again until it is enough): <p>[1]Xiang Wang, Xiaodong Song.
