

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Advances in Medicine and Medical Research</a>
Manuscript Number:	Ms_JAMMR_52632
Title of the Manuscript:	Geoengineering, Coal Fly Ash, and the New Heart-Iron Connection: Universal Exposure to Iron Oxide Nanoparticulates
Type of the Article	Review Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link: (<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Isn't that the global warming arising from a presence of sunlight absorbing aerosols such as coal fly ash (cfa) in the stratosphere would be counteracted and even overcome by the global cooling it would trigger as it strengthens the global convection process of the troposphere from below, where generations and concentrations of the sunlight absorbing aerosols from wildfires and industrial pollution, <b>as well as the Earth's thermal emission are much higher and growing faster</b> than in the higher layers of the troposphere and stratosphere?</p> <p>Moreover, isn't that the global warming arising from the presence of light absorbing aerosols would be counteracted and even overcome by the global cooling arising from the presence of the light reflecting aerosols addressed here:</p> <p><a href="#">Aerosols: Tiny Particles, Big Impact - NASA Earth Observatory</a></p> <p><a href="https://earthobservatory.nasa.gov/features/Aerosols/page3">https://earthobservatory.nasa.gov/features/Aerosols/page3</a></p> <p>?</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	As a whole, this is a very detailed enlightening on the health risks to consider in the handling and/or applications of cfa.	

SDI Review Form 1.6

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

**Reviewer Details:**

Name:	<b>Antipas T. S. Massawe</b>
Department, University & Country	<b>University of Dar es Salaam, Tanzania</b>
