<b>Compulsory</b> REVISION comments	The authors discussed the role of gut microbiota in the pathogenesis of diverse diseases such as obesity, diabetes, chronic kidney disease and cardiovascular disease. Very important content with so much effort, however, needs writing review. Corrections and suggestions are in the revised file sent together with this. Important suggestions: <ul style="list-style-type: none"> <li>Rewrite the abstract to conform to the journal requirement for number of words and format.</li> <li>In the introduction, there is a mix up between T1D and T2D. Kindly introduce and treat one before the other.</li> <li>The aim of the work is not direct. See if it can be restructured.</li> <li>Please I suggest you add a different section to discuss obesity, its relation to diabetes and other diseases. In your manuscript, its mixed under development of microbiome.</li> <li>Also add a section titled "Microbiota modulation as therapeutic strategies for obesity diabetes and other disease".</li> <li>Finally, review the reference section to conform to the journal format for referencing.</li> </ul>
