Compulsory REVISION comments	In general the manuscript " Phytochemical analysis and anti-diabetic potential of <i>Annova Muricata</i>, <i>Persea Americana</i> and <i>Montrichardia Arborescens</i> utilized by the residents of Pakuri (St. Cuthbert's Mission) in Guyana " is good. I recommend a few modification. <ul style="list-style-type: none"> - Double check the English. - I would recommend to reformulate the following part: "sampling procedure" to make an impact on the reader. You need to add details about the exact quantity and concentration, and also about the temperature and conditions where the plants were dried. - Please recheck the References order and format.
