PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>I was very pleased with the changes made to the text. The improvements in understanding were substantial. It became clearer and more direct. The technical part was well described and reproducible. My compliments to the authors for their great work.</p> <ol style="list-style-type: none"> Please rearrange the first sentence of the abstract. It's a little confusing. On page 2, the third line, the sentence that begins "Also the cost..." needs to be rearranged too. The last sentence on the first paragraph on page 2, that begins "Furthermore, plant extracts..." need to be referenced. <p>In figure 1, the images were not arranged as suggested in the previous review</p>
