

SDI Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_54531
Title of the Manuscript:	Relevance and epidemiology of Achromobacter xylosoxidans from non-respiratory tract clinical samples: a 10-year retrospective study in a tertiary-care hospital in Hungary
Type of the Article	Original Research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1. There are multiple abbreviations used in this article. Can you please summarize them either at the start or end of the article or the first time you use it in article? There might be confusion with the abbreviations you have used for antibiotics like IMP, MER, MOX, SXT, CZD, FEP etc. Please use full name first before using abbreviation.</p> <p>2. Please provide references for each when you mentioned: "From the context of clinical samples, <i>A. xylosoxidans</i> is the most frequently isolated species; the isolation of this pathogen has been described from blood, stool, urine, cerebrospinal fluid, peritoneal fluid, sputum, ear discharge, abscesses, bone and joint samples and central venous catheters" Some examples: For peritoneal fluid Tripathi, N, Koirala, N, Kato H et al First documented case of Percutaneous Endoscopic Gastrostomy (PEG) Tube-Associated Bacterial Peritonitis due to <i>Achromobacter</i> Species with Literature Review. Case reports in Gastrointestinal Medicine Jan 2020. https://doi.org/10.1155/2020/4397930</p> <p>For CSF: F. Bellissimo, M. R. Pinzone, S. Tosto, G. Nunnari, and B. Cacopardo, "<i>Achromobacter xylosoxidans</i> meningitis in an immunosuppressed patient," <i>An International Journal of Medicine</i>, vol. 107, no. 1, pp. 65-66, 2014.</p> <p>3. Please provide a table with culture and sensitivities report. Please use graphs or bars to show some of the results. Presence of tables and graphs make articles gain more attention.</p> <p>Please mention few limitations to the study. It validates the quality of your study.</p>	
Minor REVISION comments	If possible, can you present a table with: source of infection, age, gender, resistance rate etc.?	
Optional/General comments	Please mention opportunities for future research as well.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
