Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The research should show the quantity inoculated while infecting donor mice.</p> <p>In methods, subtitle drugs: This should be revised to make sense</p> <p>Table 6 and Fig 1 give the same information. Authors should use one of the graphs and make it clear(anchor). Again the mice that received water only survived for a short time???compared to those receiving drugs. Authors need to discuss this in discussion Authors did not show results regarding physical characteristics on in vivo toxicity ??give a statement whether done or not. Authors should clearly show the ethical approval number, especially regarding the use of animal models. Authors should clearly state how they disposed off the dead mice or those killed as part of experiments. Doses used in combination studies should be stated in the article.</p>	
Minor REVISION comments		
Optional/General comments
